6. Committee Business

- Committee Work Plan, Council Report, and Capital List Review

Chair Mosier queried if there were any goal changes from 2021; Mr. Harmon responded in the affirmative stating receipt of the grant for Pavilion Park would be a big goal. Ms. Smith added that another would be the continuation of work on upgrades for Pavilion Park. Chair Mosier presented a colored chart which displayed what goals were in progress and which were complete.

Ms. Smith asked how the committee would be pursuing donations for parks to which Ms. Marshall additionally questioned how the public would be informed when, and if, there was a need. It was suggested that posting this, as well as work parties, on the City Website, Facebook and the city newsletter, would be good outreach.

Mr. Harmon suggested the committee list any, and all, goal suggestions (i.e. playing field). Ms. Smith added that grouping goals into short and long term would be advantageous.

- Elections

Chair Mosier questioned if elections should be postponed due to the absence of Tom Beatty; Mr. Harmon responded that would not be in keeping with the bylaws. Ms. Marshall nominated Chair Mosier as Chair and Mr. Beatty as Vice Chair.

MOTION: Mr. Morneau moved the nominations be approved, as stated above, and Ms. Smith seconded.

Vote passed.

- Review of Pavilion Park Plaza Conception

Mr. Harmon informed the group that the timeline to pull everything together for the Pavilion Park Plaza would be February 22, 2022. He then introduced Alexis Griffin, of

Cameron McCarthy Landscape Architecture & Planning who would have a draft ready for the February meeting which is scheduled for February 15, 2020. Mr. Harmon added that additional meetings would be scheduled, if necessary. The committee expressed concern as to whether the landscape firm would be hired and Mr. Harmon assured them the City of Eugene had used the McCarthy firm in the past and they would be picking up the bill. Additionally the committee would be able to review any plans before they would be approved.

- Pickle Ball Court

Chair Mosier said she would be happy with cutting the basketball court in half and using one side for basketball and one for pickle ball; the committee agreed.

- Upcoming Work Party Plan

Chair Mosier commented that work parties had been put on hold due to the weather. Ms. Marshall responded that there would still be projects that needed work including Jacobs Parks planting area that would need cleaning. She continued by questioning how to go about purchasing color spot plants from Johnson Brothers and Mr. Harmon responded that there is an account there and the committee could purchase what they needed.

- Coburg Creek Subdivision Park Sub Committee

Chair Mosier stated this project would be postponed to a later date as the committee is currently too busy with other projects.

- Tree Donations

Chair Mosier questioned when the donated trees from Bosley and Robbins would be planted adding that planting is on hold until the weather improved.

- Children's Table Placement

Chair Mosier asked for a suggestion as to placement of the children's table at Norma Pfeiffer Park and Ms. Marshall suggested the southwest corner, by the swing set and inside the concrete, would be a good place providing there would be clearance between the table and the swing set. Another suggestion was Johnny Diamond Park near the house and behind the bench/play area.

- Committee Work Plan, Council Report, and Capital List Review (continued)

Ms. Mosier stated the following items were reported to the council in October.

1. Created donation process
2. Veterans bench installed
3. Pavilion Park Plaza work
4. Work party
5. Met with representative from across the highway
6. Annexation

Chair Mosier queried if the committee needed to look at the code for the green space at Pavilion Park which according to the colored charted indicated that it was not listed as a city park but could possibly be used for other activities. Mr. Morneau responded that the ad hoc committee would do a code review.

Chair Mosier will meet with Ann Heath regarding capital improvements. Mr. Harmon added that a capital list review would be done following the upcoming retreat, around February 15, 2022.

7. Book Report

Ms. Coury presented a review of the book, Nature's Best Hope, which examines the benefits of planting native trees and plants rather than non-native species. She further commented that the book posits that insects, birds, etc., will find the native plants instinctively.
